

## **WEEDING YOUR GARDEN**

Spring is a great time to get rid of weeds in the garden or in your lawn. The soil has not hardened too much, so the deep tap roots of the dandelion and wild carrot, for example, will come out easier. Getting to weeds now before the other plants get bigger and hide the weeds, and before the weeds flower and go to seed is worth an hour or so of your time every week. You will also get to know your garden better too ie. what survived, what needs to be divided or cut back etc.

A long proged tool with a “V” at the bottom is good for digging deep without making too much of a mess of the soil or lawn. There are also weed removers that you can use while standing up, if kneeling is a problem.

Come into Satellite Garden Centre and ask one of our staff to direct you to one of our many weeding tools.

**The Garden Store with More!**

Open 7 Days a Week.

1167 Rymal Rd. E., Ham., ON

**905.574.8188**
